

PRODUCTION SCOPE & MILESTONE DELIVERY SCHEDULE

Live Cockpit: <https://venuestrike-core.vercel.app>

MILESTONE	ARCHITECTURE & PRODUCTION ENGINEERING DELIVERABLES	TIMELINE	SHARE	ALLOCATION
Phase 0	Interactive Venue Booking Cockpit & 50-Thread Peak Rush Mutex Simulator (Live) Living prototype: 16 bowling lanes, 8 dartboards, 2 VIP lounges, 120s Redis holds, live dual-provider AI party package recommender, and automated 50-thread concurrent booking race test.	Live Now	Included	\$0.00 (Live)
Milestone 1	Paid Backlog Feature Milestone: Production Peak Concurrency & Advisory Locks Implement PostgreSQL transaction advisory locks (pg_try_advisory_xact_lock) + Redis 120s TTL holds. Defend Friday/Saturday peak rush from front-desk collisions and auto-reroute blocked threads to adjacent slots.	Weeks 1-2	20%	70 Hrs (\$4,900)
Milestone 2	Guest Booking Flow: Multi-Resource Allocation & F&B Catering Attach Engine Build real-time lane, board, and VIP suite scheduler. Support multi-lane party bookings, duration selection, deposit calculation (40%-50%), and curated F&B catering packages with credit card pre-auth holds.	Weeks 3-4	20%	70 Hrs (\$4,900)
Milestone 3	Operator Back Office: Multi-Location Rules, Dynamic Pricing & Staff RBAC Develop central venue management console across multiple locations. Configure peak (1.8x-2.5x) vs off-peak rules, rate mode toggling (per-hour vs per-game), custom operating hours, and staff permission tiers.	Weeks 5-6	20%	70 Hrs (\$4,900)
Milestone 4	POS, Payment Provider & Lane Scoring Hardware Pinsetter Bridge Architect webhook adapters for Toast POS and Square API to sync open tabs by lane. Build TCP socket bridges for Brunswick Sync and QubicaAMF Conqueror pinsetters, plus RFID game card reader integration.	Weeks 7-8	20%	70 Hrs (\$4,900)
Milestone 5	Manager Reporting: RevPASH, Utilization Heatmaps & Peak Reliability Telemetry Deploy real-time reporting for venue managers: utilization per lane and dartboard, revenue per available slot hour (\$/hr), F&B spend attach rates, and Saturday night P99 latency alerts on AWS CloudWatch.	Weeks 9-10	20%	70 Hrs (\$4,900)
TOTAL FORWARD DEPLOYED ENGINEERING SCOPE (ONGOING CONTRACT)		10 Weeks	100%	350 Hrs (\$24,500)

MILESTONE SCHEDULE & PAID FIRST MILESTONE

Phase 0: Interactive Prototype & Concurrency Lab

Live Now (\$0)

Milestone 1: Paid First Feature (Backlog Item)

2 Weeks (70 Hrs @ \$70)

Milestone 2: Guest Booking Flow & F&B Bundling

2 Weeks (70 Hrs @ \$70)

Milestone 3: Operator Back Office & Pricing

2 Weeks (70 Hrs @ \$70)

Milestone 4: POS & Pinsetter Hardware Bridge

2 Weeks (70 Hrs @ \$70)

Milestone 5: Manager Utilization & RevPASH

2 Weeks (70 Hrs @ \$70)

FORWARD DEPLOYED SYSTEMS STANDARDS & SLA

✓ Zero Peak Double-Bookings: PostgreSQL transactional advisory locks guarantee atomic lane allocation under 50+ concurrent checkout threads.

✓ Sub-4ms Mutex Acquisition: In-memory and Redis 120s TTL locks isolate high-contention Saturday night slots with instant client feedback.

✓ Hardware Fault Isolation: Toast POS and Brunswick Sync socket disconnects degrade gracefully without blocking web bookings.

✓ US Eastern Overlap: Guaranteed 4+ hours daily synchronous overlap with US Eastern time zone for standups and venue manager calls.

✓ Saturday Incident Readiness: Proactive AWS CloudWatch alarms, structured logging, and verified rollback runbooks for peak night traffic.

CALIBRATED RATE

\$70.00/hr USD (35 hrs/wk) calibrated to match client's past hiring rates (Vitalii, Dmitrii, Ilya @ \$70/hr).

PAID 2-WEEK MILESTONE

Risk-free trial: deliver one real feature from backlog (approx 2 weeks / 70 hrs) before continuing ongoing contract.

100% CODE OWNERSHIP

All TypeScript, React, Node.js, SQL DDL, and AWS infrastructure scripts transfer directly to your GitHub repository.

END-TO-END OWNERSHIP

Talk directly to venue managers, scope features, build full-stack, deploy to AWS production, and monitor live telemetry.

FORMAL ENGINEERING SERVICES ACCEPTANCE & ENGAGEMENT AUTHORIZATION

UPWORK CONTRACT READY • REF #BS-2026-VENUESTR

PRINCIPAL SYSTEMS ARCHITECT (PROVIDER):

CLIENT ACCEPTANCE (ENTERTAINMENT VENUE SAAS):

Shakil Ahmed

Sep 18, 2026

[Authorized via Upwork Contract Offer]

Pending Offer

SHAKIL AHMED • FOUNDER & PRINCIPAL ARCHITECT, BARAKAHSOFT LLC

AUTHORIZED CLIENT REPRESENTATIVE • ENTERTAINMENT VENUE SAAS PLATFORM

Shakil Ahmed • Principal Systems Architect & Forward Deployed Engineer

BarakahSoft LLC • Former Lead Engineer at Legiti (\$1M ARR Command Center) • Securiti Certified AI Architect

12+ Years Enterprise Systems Engineering • TypeScript, React, Node.js, PostgreSQL, AWS • Verified Upwork Partner
